

Technical Bulletin	Model 911	Group 5
Subject Deletion of Right Door Lock Cylinder	Part Identifier 5709	Number 9602

ATTENTION: Service Manager / Service Technician

Models Affected: **911 Carrera Model Year 1997**
911 Turbo Model Year 1997

Concern: The keyed lock cylinder in the right door of the above-mentioned vehicles has been deleted.

General Information: As of Model Year 1997 for the above-mentioned vehicles, the right side door cannot be unlocked with a key. Unlocking of the right side door can only be accomplished with the remote hand sender or by opening the door from inside the vehicle.

The area of the door handle where the lock cylinder was formerly located is covered with a black metal cap.

Important Notice: Porsche Cars N.A Technical Bulletins are intended for use by professional technicians, not a "Do-it-yourselfer." They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Special tools may be required to perform certain operations identified in these bulletins. Use of tools and procedures other than those recommended in these bulletins may be detrimental to the safe operation of your vehicle. Properly trained technicians have the equipment, tools, safety instructions and know-how to do a job properly and safely. If a condition is described, do not assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your Porsche Dealer for information on whether your vehicle may benefit from the information. Part numbers listed in these bulletins are for reference only. Always check with your authorized Porsche dealer to verify correct part numbers. ©1996 Porsche Cars North America, Inc.
