The Porsche 911 (type 933) is the epitome of the true sports car, but it's also a car that combines comfort and safety with the practicality required for everyday road use. In fact the 911 is more than just a car, it's an idea crafted in metal. The idea of giving every 911 driver the ultimate expression of personal freedom and individuality.

Which is why we developed Porsche Tequipment, a range of aftermarket accessories offering almost unlimited scope for personalisation. Where outstanding design and functionality are just as im-

portant as the quality of the materials we use. Porsche Tequipment products can be used to personalise your 911 whenever you want, however you want. In terms of styling, specification or both. Our aim is to build a car that's exactly the way you want it, limited only by the bounds of technical feasibility. Which means the possibilities are virtually endless.

All Tequipment accessories have been specially developed for the 911, as well as tested and approved by Porsche. Which is why every part bears the same hallmark of quality as the car itself: Porsche.

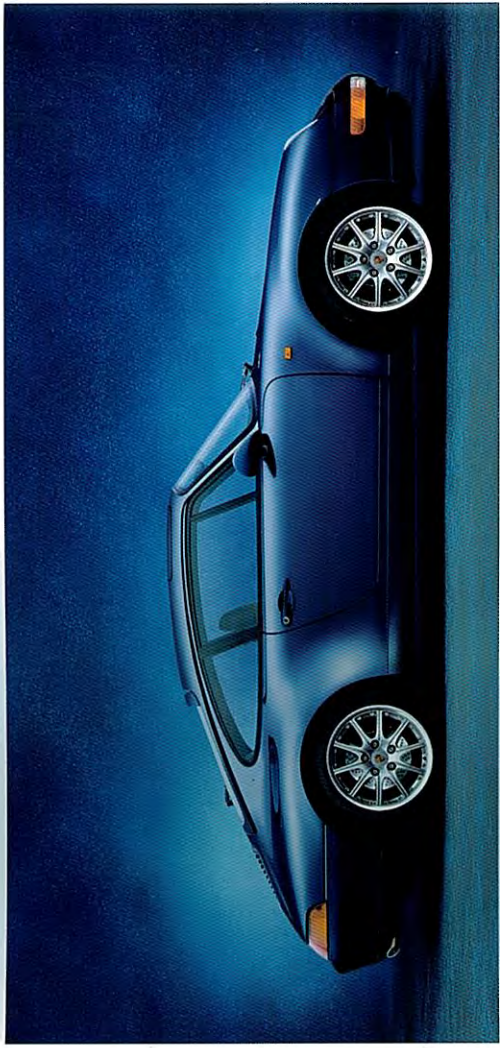

But although there are many changes we can make to your Porsche, one thing always stays the same: the warranty. Whatever modifications and enhancements you ask us or your Porsche dealer to carry out, all parts are covered by a two year warranty.

Porsche Tequipment. Making the 911 what it was always intended to be: unique.

Wheels are an important factor in the overall appearance of your 911. In recognition of that fact, we've created a range of styles and sizes that offer plenty of scope for personalisation.

Porsche wheels are not only designed to match your car, they also make a significant contribution to active safety. Without compromising on comfort.

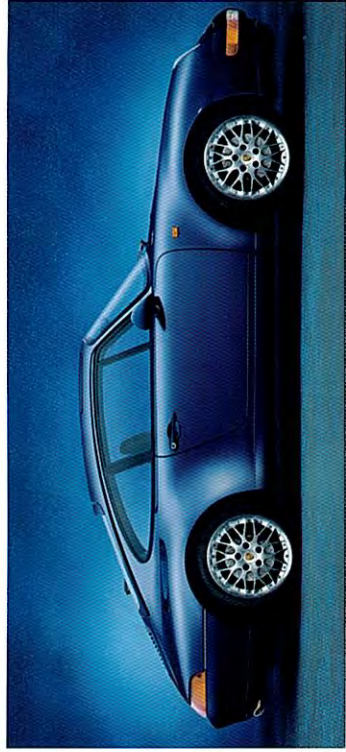

18" SportDesign complete wheel set; part no. 000 044 600 09 with Continental tyres\*

Equipment wheels take their styling cues from Porsche's rich racing heritage. A traditional Porsche feature is the five-bolt design and large pitch circle, which creates a choice of five- or ten-spoke configurations offering greater rigidity than other wheels, despite the slimmer spoke design and corresponding reduction in weight.

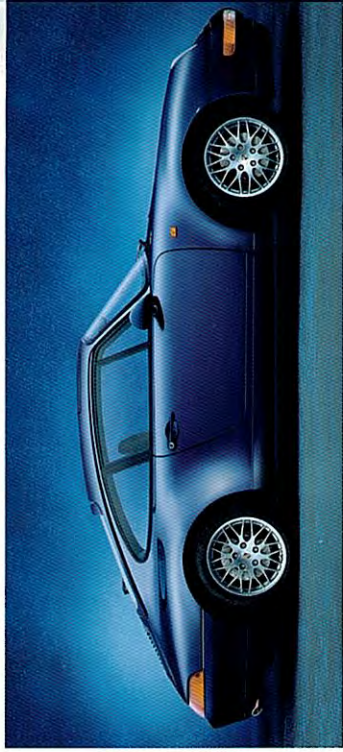

**18" SportDesign wheel**  
Two-piece alloy wheel featuring the double-spoke look found on the 911 (type 996) GT3. The larger gap between the spokes makes for better brake ventilation.

**18" SportClassic II wheel**  
Two-piece alloy wheel with classic Y-shaped spoke design inspired by Porsche racing cars of the past.

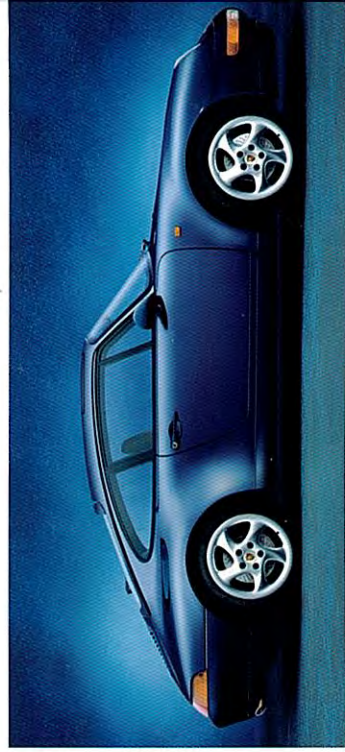

18" SportClassic II complete wheel set; part no. 000 043 203 71 with Pirelli tyres\*

**17" SportClassic wheel**  
One-piece alloy wheel with Y-shaped spoke design manufactured to Porsche specifications.

17" SportClassic complete wheel set; part no. 000 043 203 62 with Continental tyres\*

**18" Turbo I wheel**  
One-piece alloy wheel with hollow spokes providing a weight reduction over conventional designs of around 3 kg per wheel as well as outstanding strength.

18" Turbo I complete wheel set; part no. 000 043 203 61 with Continental tyres\* (Carrera, Carrera 4) or part no. 000 043 203 93 with Pirelli tyres\* (Carrera S, Carrera 4S, Turbo)

\* See the table on page 7 for wheel and tyre sizes.

Part no. 000 044 600 00

Crested valve caps

Four rubber valves with chrome-finish sleeves and embossed Porsche crest.

Part no. 000 044 600 12

Wheel centre set

Concave, silver-coloured wheel centres with Porsche crest in traditional colours.

Spacers

Spacers

Designed to widen the track and enhance the appearance of your Porsche. Centring elements on both sides ensure a perfect fit for wheel and hub.

Anti-theft protection Part no. 993 361 057 00

Anti-theft protection for wheels

Set of four alloy wheel nuts with special anti-theft coding system.

Snow chains

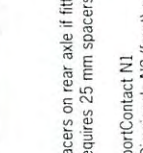

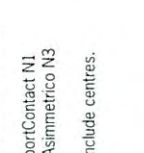

Snow chains

Specially designed for use on Porsche cars. Chains feature extremely fine links, a low profile, and are easy to fit. Snow chains for tyre sizes 225/50 R 16 and 225/45 R 17:

Part no. 996 361 920 00

Snow chains for tyre size 255/40 R 17:

Part no. 996 361 921 00

\* Requires 31 mm spacers on rear axle if fitted on Carrera, Carrera 4, Targa or Carrera S.  
\*\* Carrera S, Turbo. Requires 25 mm spacers on rear axle if fitted on Carrera S.

17" tyres: Continental: SportContact N1  
Pirelli: P Zero Direzionale N2 (front) and Asimmetrico N2 (rear)

18" tyres: Continental: SportContact N1  
Pirelli: P Zero Asimmetrico N3

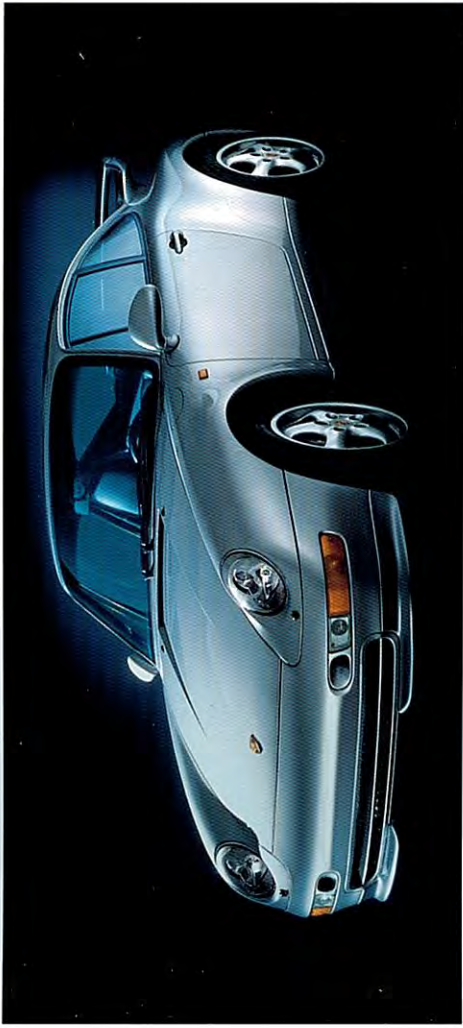

Note: Wheel sets do not include centres.

Exterior

Porsche Tequipment also includes a range of attractive, race-proven exterior options that will enhance both the aerodynamic efficiency and appearance of your 911.

All Aerokits and spoilers have been specially developed in the Porsche wind tunnel to reduce lift on the front and rear axles and generate more downforce. Giving you more of what the 911 was designed for: all the speed and excitement of a high-performance sports car, but with the road holding to match.

Aerokit I, part no. 000 044 800 28

Aerokit I

Reduces lift on the front and rear axles, while emphasising the racing heritage of the 911. Comprises: two-part spoiler

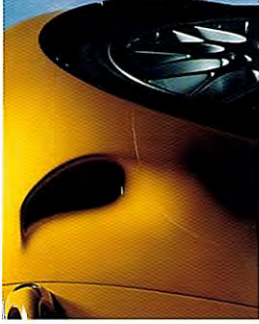

beneath the standard front apron and rear bi-plane spoiler with intake grille to assist engine cooling.

Turbo Aerokit, part no. 000 044 800 15

Turbo Aerokit

Comprises the standard nose section and rear spoiler of the 911 Turbo. Enhances the aerodynamic characteristics of the 911 Carrera, while adding the potent looks of the 911 Turbo.

Air inlet (left), part no. 993 503 980 00.  
Air inlet (right), part no. 993 503 981 00

Air inlets on rear arches

Air inlets on the rear wheel arches reminiscent of the legendary and innovative Porsche 959. For Carrera S, Carrera 4S and Turbo: part no. 993 503 980 01 (left) and part no. 993 503 981 01 (right)

Carrera S rear styling, part no. 000 044 800 98

Carrera S rear styling pack

Discreet rear styling pack featuring two-part air grille for the standard rear spoiler.

Aerokit Ib

Same as Aerokit I but with integrated third brake light in the upper wing profile. This added feature is also available as an upgrade kit for the Aerokit I.

Aerokit Ib, part no. 000 044 800 29.  
Upper wing profile with integrated third brake light, part no. 000 044 800 27

RS Clubsport Aerokit, part no. 000 044 800 14

#### RS Clubsport Aerokit

Comprises three-part front spoiler, twin side skirts, a two-part rear spoiler with side air inlets to improve engine cooling, as well as an air grille for the engine compartment lid. The upper wing on the rear spoiler is manually adjustable. The RS Clubsport Aerokit has been race-tested in the international Porsche Supercup series.

partment lid. The upper wing on the rear spoiler is manually adjustable. The RS Clubsport Aerokit has been race-tested in the international Porsche Supercup series.

GT2 Aerokit (rear view), part no. 993 505 005 80 (only available from Porsche Motorsport)

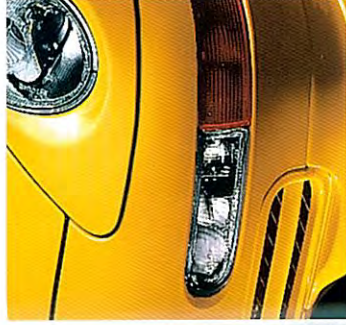

RS Clubsport Aerokit (front view)

#### GT2 Aerokit

Comprises three-part front spoiler and two-part, manually adjustable rear spoiler with side air inlets to assist engine cooling. The GT2 Aerokit represents uncompromising, race-proven design.

GT2 Aerokit (front view)

RS Aerokit (front view)

#### RS Aerokit

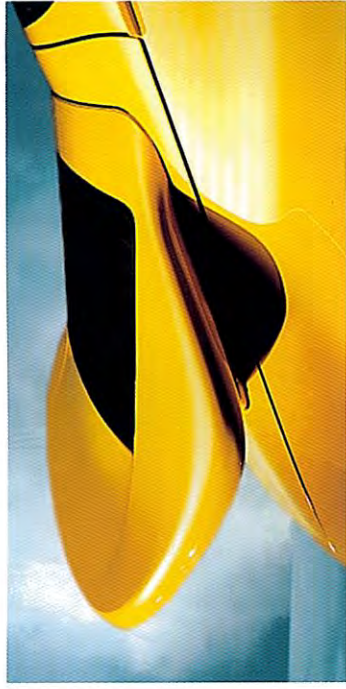

Kit comprises the same equipment used on the 911 Carrera RS. Includes two-part front spoiler, twin side skirts (with optional paint finish), and elegant one-piece rear spoiler with cooling grille.

Active cooling system, part no. 993 631 980 00, (left) and 993 631 980 01 (right)

#### Active cooling system

Active air supply for the oil cooler and air conditioning unit. Includes two air-intake ducts on the front apron with integrated sidelights replacing the standard light unit.

RS Aerokit, part no. 000 044 800 13

#### Turbo S Aerokit

Comprises a one-piece front spoiler matching the nose section of the Carrera S, Carrera 4S and Turbo, as well as an engine compartment lid with rear spoiler and side air inlets.

Turbo S Aerokit, part no. 000 044 800 16

The engine and chassis on the standard 911 have always offered outstanding performance, as thousands of race victories will confirm. But no matter how well we build our cars, we're

never going to rest on our laurels.

The following pages offer a number of engine and chassis modification options for an

even more dynamic driving experience.

You'll also find everything you need to prepare your Porsche for the track, including all the necessary safety equipment.

Turbo Powerkit 331 kW (450 BHP), part no. 000 044 100 03 (Turbo with immobiliser) and part no. 000 044 100 04 (Turbo without immobiliser)

#### Turbo Powerkit 316 kW (408 BHP - 430 BHP)

Boosts the power output of the 911 Turbo from 300 kW to 316 kW at 5,750 rpm.

Includes additional oil cooler kit and stainless steel tail pipes.

Part no. 000 044 100 01 (Turbo with immobiliser) and part no. 000 044 100 02 (Turbo without immobiliser)

#### Turbo Powerkit Plus 911 Turbo (Type 993) (430 BHP - 450 BHP)

Boosts power output from 316 kW to 331 kW.

#### Sports bucket seat

This professional-quality bucket seat provides superb lateral support and is designed for use in conjunction with a three- or six-point safety belt. The seat features manual fore/aft adjustment, and can be supplied in a leather finish as well as in an FIA-compliant, flame-resistant black fabric.

Sports bucket seat in leather:

Part no. 993 521 901 01 (left)

Part no. 993 521 902 01 (right)

+ colour code in each case

Sports bucket seat in black fabric:

Part no. 993 521 901 00 (left)

Part no. 993 521 902 00 (right)

Sports bucket seat

Turbo sports chassis, part no. 000 044 500 02

#### Turbo sports chassis

Lowers the centre of gravity on the 911 by 15 mm to further improve handling. Stiffer suspension enhances mid-corner stability.

#### Sports tail pipes

Chrome-plated exhaust tail pipes made of stainless steel and featuring a larger, oval cross-section. Part no. 000 044 200 01 (set for Carrera and Carrera 4)

Exhaust sound enhancement package, part no. 000 044 200 00 (not approved for use in Germany)

#### Exhaust sound enhancement package

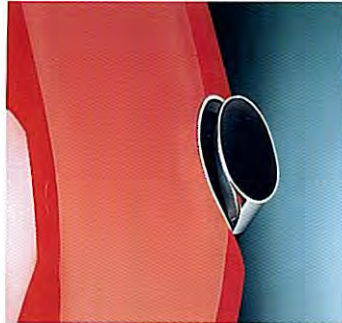

Enhances both the sound and appearance of the 911 exhaust system and engine.

Twin tail pipe (left), part no. 993 111 981 03, Twin tail pipe (right), part no. 993 111 982 03

#### Twin tail pipes

Twin tail pipes in chrome-plated stainless steel. As used on the Turbo S.

Sports tail pipe

Part no. 993 111 981 01 (Turbo, left)

Part no. 993 111 982 01 (Turbo, right)

Part no. 993 111 981 02

(Carrera S and Carrera 4S, left)

Part no. 993 111 982 02

(Carrera S and Carrera 4S, right)

Front strut brace, part no. 964 343 042 00

#### Front strut brace

Increases torsional stiffness, making for better handling on the track or in extreme conditions on the road.

On the 911 Cabriolet, it only takes the push of a button to lower the hood and let the sun come in. Unfortunately, however, sometimes the wind and the rain aren't far behind.

The Cabriolet accessories shown here offer effective protection against the elements and are carefully designed to complement your 911 Cabriolet.

Allowing you to enjoy the pleasures of open-air motoring, whatever the season.

Wind deflector, part no. 000 043 202 10. Hood cover, part no. 993 561 980 00 (911 with two-point belt) and part no. 993 561 980 01 (911 with three-point belt, M335). Bag, part no. 000 043 202 11

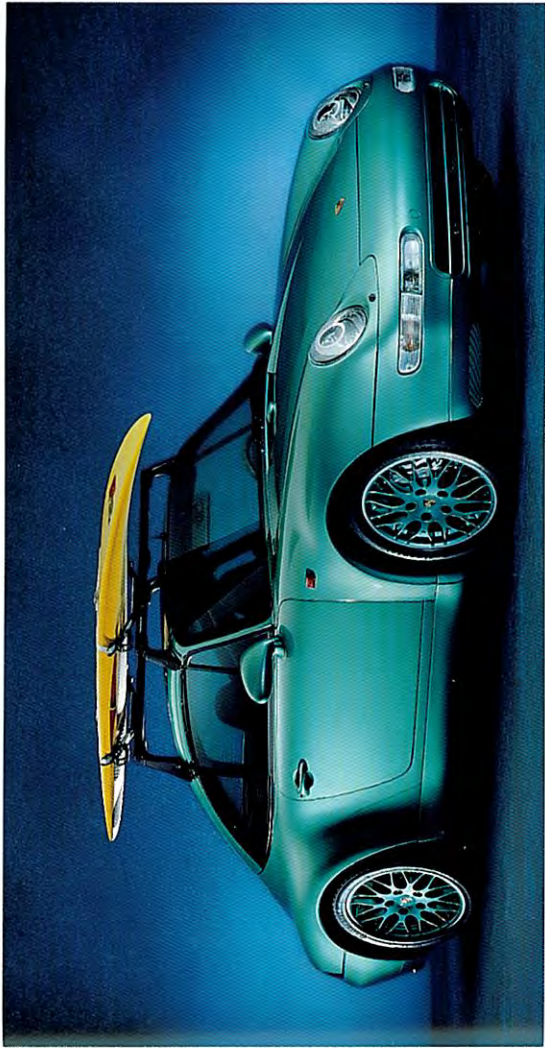

**Wind deflector**

This easy-to-fit, folding wind deflector reduces turbulence for both driver and passenger as well as covering any luggage on the rear seat. It can remain in position when closing the hood.

Above all, the 911 is an out-and-out sports car. But it also offers a remarkable degree of practicality. Total storage capacity, for instance, is an ample 323 litres.

Even so, sometimes getting the most out of your car calls for getting even more in. Which is why we've developed a range of tough and adaptable load carrier systems.

Specially designed for use on the 911, these systems can cope with just about any load. Because at Porsche, the principle of true sports car driving is freedom.

Load carrier system for 911 Coupé (part no. 993 801 055 00) and Cabriolet (part no. 993 801 055 01) Load carrier system for 911 Targa (part no. 993 801 055 02). Surf/sail boat carrier (part no. 996 801 019 00)

**Load carrier system**

Comprises base carrier designed to take up to 75 kg (35 kg on 911 Cabriolet or Targa) on one of a range of attachments for specific loads. Rugged security caps and locks on all carriers ensure optimum anti-theft protection.

Ski holder, part no. 000 044 000 04

Bicycle carrier (part no. 000 044 000 48) with lock set (part no. 000 044 000 49)

There's nothing mass-produced about the interior of a 911, as anyone who has ever experienced the quality of our hand-sewn upholstery will appreciate. Over the next few

pages, you'll find a range of options designed to underline the racing heritage of the 911 or simply to make driving more comfortable for you and your passengers.

Whatever you choose, the result will be unique. With every added feature crafted to match your 911.

Full carbon interior for cars up to and including MY 96, part no. 000 044 800 23 (LHD) and part no. 000 044 800 24 (RHD)

**Carbon interior**

Carbon fibre is a lightweight and robust material used extensively in the world of motorsport.

Now you can also enjoy this unique synthesis of racing technology and high-tech design in the interior of your 911.

The following parts are available in genuine carbon fibre:

- Instrument surround/switch panel elements:  
part no. 993 552 985 04 (LHD cars)  
part no. 993 552 985 05 (RHD cars)
- Door release catches:  
part no. 993 555 980 01 (left)  
part no. 993 555 981 01 (right)

- Centre console:  
Part no. 000 044 800 60
- Door panel:  
Part no. 000 044 800 63 (kit, for cars from MY 97),  
part no. 000 044 800 32 (left side, cars up to and including MY 96),  
part no. 000 044 800 33 (right side, cars up to and including MY 96)

Stainless steel door entry guards (Carrera), part no. 993 551 980 01

Stainless steel door entry guards (Turbo), part no. 993 551 980 03

**Stainless steel door entry guards**

Stainless steel or carbon fibre door entry guards provide a stylish and discreet optical enhancement for your Porsche as well as protecting the paintwork.

**Floor mats**

Tailored velour floor mat sets are also available for your 911.

All mats are designed to match the quality and colour of the interior pile and have a non-slip and waterproof rubber backing. The mats are fixed to pads using Velcro strips to prevent slipping.

- Part no. 000 043 152 10 + colour code (LHD cars),  
part no. 000 043 156 20 + colour code (RHD cars) and  
part no. 000 043 152 20 + colour code (RHD with Tiptronic)

Floor mats

Rechargeable torch, part no. 000 044 900 20

**Rechargeable torch**

Compact design with fold-out magnifying glass. Can be recharged from the cigarette lighter with minimal power draw.

Intelligent communications get where you want to with technology is becoming ever minimum delay.

more important on today's roads, allowing you to stay available Porsche Tequipment has a carefully selected range of com-

at all times, and helping you to

Navigation system, part no. 000 044 900 55  
GPS antenna, part no. 000 044 900 34

TrafficPro navigation system

A navigation system offers major advantages in terms of mobility, safety and driving pleasure.

Because even when you're far from home, there's always a system on hand to help get you straight to where you want to go. And stay relaxed in the process. The TrafficPro navigation system offers all the advantages of a conventional system, but it's smaller, more compact, and has everything you need all rolled into one. Navigation system, car radio, and CD player. The system works by copying all navigation data into memory to calculate the best route. Which means that once the route has been determined, the CD player is free again to play your favourite music. Audio features are identical to those offered by the Porsche CDR 32 CD radio. The new Porsche TrafficPro offers significantly improved functionality (including the ability to store stopover destinations) and comes with a new, high-quality dot-matrix display. Road network information for thirteen European countries is provided on a single CD. Despite the compact format of the system, nothing has been left out. Before you begin your journey, simply enter your destination using the right-hand control knob. Route

munications and audio equipment with a variety of options enabling you to transform your 911 into a fully networked communications centre.

Navigation system features

- Destination input: Alphabet and selection list, input/selection via right-hand control knob
- Storage: Stores around 50 destinations as well as 50 most recent destinations
- Traffic button: Prevents a section of road which may be particularly congested from being used
- Stop button: Enter a stopover destination
- Info button: Displays remaining distance, expected time of arrival, destination and current position
- Route calculation modes:
  - Shortest/fastest route, use/avoid motorway, use/avoid toll roads, use/avoid ferries
  - Display: Junctions with adjoining minor roads, distance to junction, current road, road required after junction
  - Route guidance: Directions given in natural voice (male or female) and choice of language
  - Navigation CD: Austria, Belgium, France, Germany, Italy & San Marino, Liechtenstein, Luxembourg, Netherlands, Switzerland, England, Denmark, Sweden

guidance comes in the form of a visual display on the unit itself and as voice output using the car's own speakers (with a choice of English, French, German and Italian).

Porsche audio systems

- CR-22 radio cassette:  
Part no. 000 044 901 00
- CDR-22 CD radio:  
Part no. 000 044 901 01
- CDR-32 CD radio:  
Part no. 000 044 901 02
- MDR-32 MiniDisc radio:  
Part no. 000 044 901 03
- CR-220 radio cassette Part no. 000 044 901 04 (special receiver for USA and Australia)
- CDR-220 CD radio: Part no. 000 044 901 05 (special receiver for USA and Australia)
- CR-2200 radio cassette:  
Part no. 000 044 901 06 (special receiver for Japan)

CD autochanger, part no. 000 044 900 10

Porsche CDC-3 CD autochanger

The Porsche CD autochanger is compatible with all Porsche audio systems. It accommodates up to six CDs in a niche in the luggage compartment. Functions are accessed via audio system controls.

Audio system features	MDR-32	CDR-32	CDR-22	CR-22
<b>DAS</b> (Dynamic AutoStore). Softkey display of all available stations. Stations are listed by reception quality. Programmes can be displayed after the abbreviated station name.	x	x	-	-

The 911 is more than just the epitome of a high-performance sports car. It also sets new benchmarks when it comes to safety, and contains parts originally developed for the race-

the youngest Porsche passengers in mind - equipment which is easy to fit and offers the same outstanding levels of safety as the 911 itself.

Litronic kit, part no. 000 044 900 14 (Japanese spec. RHD cars) and part no. 000 044 900 16 (ECE LHD cars)

Roof panel

Extends the line of the roof at the rear. Made of lightweight plastic, with optional integrated third brake light.

Rain sensor

A rain sensor located on the windscreen monitors the intensity of the rain and varies the wipe interval accordingly ensuring optimum forward visibility at all times.

Rain sensor, part no. 996 612 981 00

Roof panel, part no. 000 044 800 11 and 000 044 800 12 (with third brake light)

Porsche Baby Safe, part no. 000 802 013 00 with sun shade, part no. 000 802 113 00

Porsche Prince, part no. 000 802 015 00

Porsche Zoom, part no. 000 802 017 00 with sleep support, part no. 000 802 019 00

Airbag deactivation unit, part no. 996 803 083 01

Porsche child seats

Porsche child seats ensure that passengers up to the age of 12 can also travel in safety, comfort and with minimum restriction of movement. These compact seats have been specially designed for use on the rear and front passenger seats of your 911. Seats can be secured quickly and easily using the standard seat belts.

Airbag deactivation unit

The airbag deactivation unit is enabled when the child seat is fitted to the passenger seat and prevents the airbag from being deployed in an accident. The unit must be installed by your Porsche dealer.

Where possible, the child seat should be fitted to the rear seat. If fitted to the front passenger seat, the passenger airbag must be deactivated. If you wish to fit child seats to the rear seat, we recommend that you install a seat belt extension.

Vehicle model	Group 0 ( $< 10$ kg, 0-9 months)	Group I (9-18 kg, 9 months - 4 years)	Group II (15-25 kg, 3.5-7 years)	Group III (22-36 kg, 7-12 years)

At Porsche, we like to look after our drivers as well:

Porsche Selection

An exclusive collection of lifestyle accessories and garments designed to match your Porsche. All Selection products are timeless, high quality and totally individual. No matter what you choose, each product offers the same attention to detail you'd expect from Porsche.

Porsche Classic

Porsche Classic is a service covering the Porsche 356, 914, 912, and all 911s built before 1974. Genuine parts can be obtained from your Porsche dealer, while our Porsche Classic experts are always on hand with useful advice on looking after your classic Porsche.

Porsche dealers/importers

In addition to new and used cars, your Porsche dealer provides everything you'll need for your Porsche, including servicing, advice, genuine parts, accessories and lots more besides. All parts and accessories come direct from Porsche, and feature the same high standards of quality we put into all our products.

Porsche Sports Driving School

The Porsche sports driving school has been offering safety training for 25 years, giving every Porsche driver the opportunity to learn more about their car's characteristics and how best to cope with tricky situations. The techniques and tips apply equally to the racetrack and to everyday road use.

Porsche online

The Porsche website offers a host of Porsche-related news and information. Other options include building a Porsche to your own specification, searching for a specific used model, or sending us an e-mail. Visit us at [www.porsche.com](http://www.porsche.com).

Porsche Clubs

There are approximately 360 Porsche Clubs around the world with more than 120,000 members. Porsche Clubs organise rallies and meetings to which you are always cordially invited.

Porsche Travel Club

The Porsche Travel Club offers exciting and unusual tours and holiday breaks. Each one is exclusive, innovative and individual. And perfectly organised, leaving you to relax and enjoy yourself. Treat yourself to a totally new experience.
