Porsche Centre.

**How to avoid
losing
your grip.**

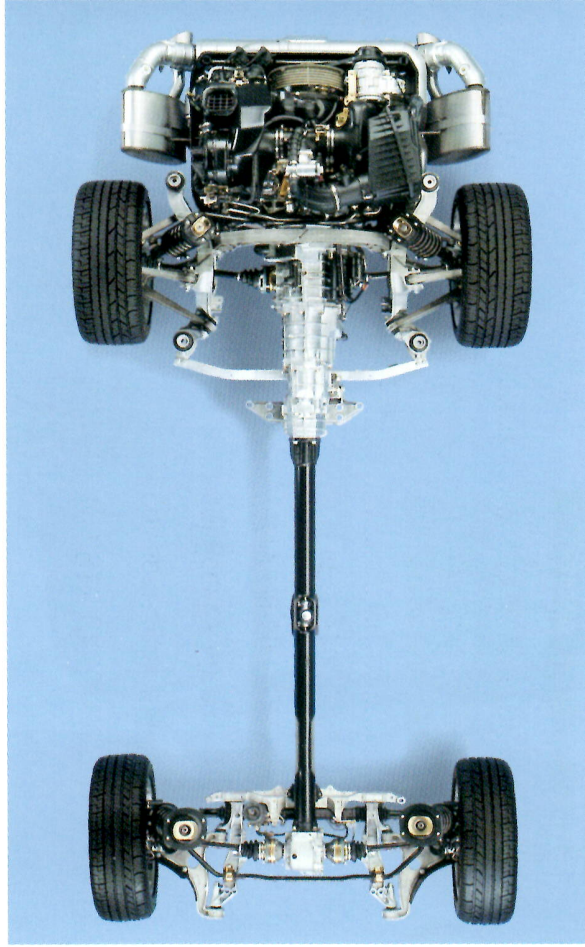

Four-wheel drive.

**The new
911 Carrera 4S.**

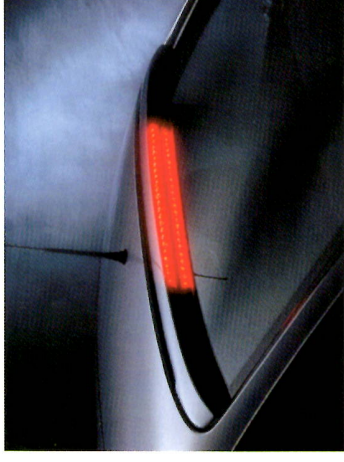

Enhanced safety and agility.

911 Carrera 4S. Any resemblance to the 911 Turbo is purely intentional.

The 911 Carrera 4S: Our answer to the perfectionist whose expectations are always that little bit higher. It offers great looks, more advanced engineering, and more power on the road. Let's fill in the details: The 911 Carrera 4S comes with all-leather interior,

air conditioning, trip computer, and 10 speaker sound system fitted as standard on the 911 Turbo, plus a host of other interior features.

If you think appearances matter...

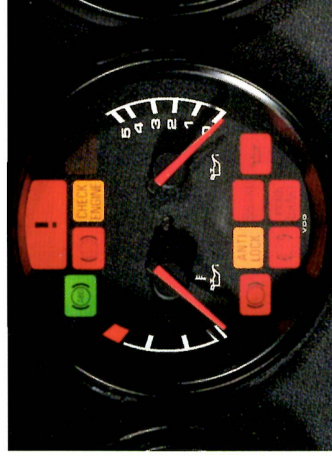

It also has the 911 Turbo's nose section and super-powerful braking system, flared sills and rear body, dynamic differential system and 'Turbo-look' 18-inch wheels.

It also features the four-wheel-drive system fitted to the Carrera 4, with the dual benefits of improved handling and greater safety.

On the road, most of the time you

won't feel any difference behind the wheel of the 911 Carrera 4S compared to the classic rear-wheel drive 911 Carrera. As with the 911 Turbo, we merely take the liberty of supporting the driver by way of the four-wheel-drive system, when conditions require it.

The 911 Carrera 4S is an out-and-out sports car that gives you the confidence born of perfection in every situation, at any speed. Call in at your Official Porsche

... but you care what's on the inside, too.

Centre and we'll show you what we mean.

**A push-button
revelation.**

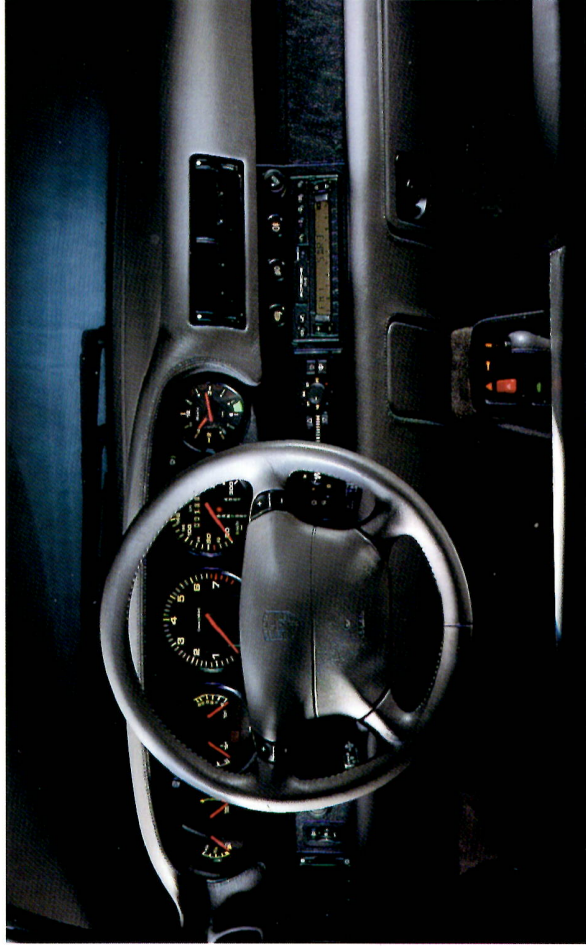

Open skies.

**The new
911 Targa.**

Greater freedom and flexibility.

Please take your seat in the new 911 Targa.

The 911 Targa. Our answer to all fresh air fans looking for a simple, convincing solution.

The 911 Targa's newly-developed glass roof system is perfectly integrated into the classic lines of the 911 Carrera.

Quick and extremely easy to operate, it allows you to position the roof panel anywhere between fully open and fully closed at the touch of a button.

The newly-developed roof system offers you the freedom...

When you press the button in the centre console the roof panel glides quietly under the rear window.

Even with the roof closed you get an open-air feeling, yet the tinted glass roof panel offers almost total privacy. The electric sunblind provides protection from heat and cold alike. The 911 Targa offers you more driving enjoyment, in

every respect: The 911 Carrera engine in the new models has increased power output of 210 KW (285 BHP).

The 911 Targa is also available with Tiptronic S automatic transmission / manual gear selection. Buffet-free fresh air fun: The 911 Targa offers a whole new sensation at your Official Porsche Centre now.

... to decide how much fresh air you want.
